## PROFILE INTRODUCTION

Results-driven and detail-oriented **PHP Developer** with 3+ years of experience in building scalable, secure, and responsive web applications. Skilled in full-stack development with hands-on expertise in **Laravel, PHP, JavaScript, HTML5, CSS3, and MySQL**. Adept at integrating **RESTful APIs**, optimizing performance, and collaborating in **Agile teams**. Demonstrated success in developing **CRMs, e-commerce platforms**, and dynamic websites. Passionate about clean code, UI/UX best practices, and continuous learning.

## WORK EXPERIENCE

PHP Laravel Developer  
DAYS Group of Companies, Chennai  
Oct 2023 – Present

- Designed, developed, and maintained web applications using the Laravel PHP framework, focusing on performance optimization, scalability, and application security.
- Built and customized a dynamic Customer Relationship Management (CRM) system to improve user interaction, automate workflows, and enhance data management using MySQL and Laravel Blade templating.
- Updated and modified live production websites hosted on Hostinger & Cpanel, implementing bug fixes, feature enhancements, and version control using Git.
- Collaborated with cross-functional teams including designers and front-end developers to integrate APIs and ensure seamless user experiences.
- Applied RESTful API development, middleware, and MVC architecture best practices to ensure maintainable code and modular development.
- Conducted code reviews and performance testing to ensure high-quality and secure web application deployment.
- Monitored website performance, indexed pages, and resolved crawl errors using Google Search Console to ensure SEO compliance and improved search visibility.
- Utilized SEMrush for keyword tracking, competitor analysis, site audits, and technical SEO improvements to enhance organic traffic and user engagement.

Web Developer  
Tunepath Technologies, Madurai  
Feb 2023 – Aug 2023

- Designed and developed responsive web applications using HTML5, CSS3, and JavaScript, ensuring compatibility across all major browsers and devices.
- Built server-side scripts with PHP to manage dynamic forms, data processing, and MySQL database interactions.
- Collaborated with UI/UX designers to implement user-friendly interfaces using wireframes and prototypes..
- Ensured SEO optimization and followed web standards for code cleanliness and performance.

Front-end developer  
Ouranus Global Solutions, Madurai  
Jan 2022 – Aug 2022

- Worked as a front-end developer to create basic web pages using HTML, CSS, and JavaScript.
- Helped improve website layout and features like buttons and forms for a better user experience.
